

THE SILENT UNIVERSITY

KICK-OFF EVENT

DATE: 30 July 2018, 5 pm

VENUE: FUX Kaserne, 22765 Hamburg, Bodenstedtstrasse 16, backyard west entrance, 2nd floor

PANEL DISCUSSION:

»Intervening and uniting against tightening access to education and immigration policies in Europe«

Since 2015, *The Silent University Hamburg* has become a platform for knowledge exchange of refugees and migrants. Our internal meetings, workshops, seminars, public discussions and debates have added special values to the general discourse, exposed German and European political indifference, and how European authorities are becoming intolerant towards refugees and migrants. Yet we want to continue to reactivate »silenced knowledge« by sustaining our space with political and academic events.

The Silent University Hamburg invites the public to the re-start and kick-off event that will commence the 30th of July 2018. The members of this autonomous platform of direct education without bureaucratic barriers would reinvigorate their competencies with counterparts from Denmark, Lampedusa in HH, and the Afghan community on how to intervene and unite against tightening access to education and immigration laws in Germany and Europe.

A representative from *Welcome United* anti-racist movement will join our panel discussion, because *The Silent University Hamburg* will be part of the anti-racist parade *We'll Come United* on Sept 29th 2018.
